

HOW IT WORKS

- 2-4 people are needed to play.
- Set up your field of play. Think about the shape of a baseball field, and make your own foul lines. Any width will do.
- Designate areas of the field, starting from your home plate and ending at the farthest distance: Single, Double, Triple and Home Run.
- Players will take turns trying to hit the ball past the defenders in the field to score runs. **NO RUNNING!**
- Players can hit off a tee, soft toss or even pitch to each other.
- Balls hit past defenders or not fielded cleanly result in a “ghost” runner on base.
- If a defender fields the ball cleanly, that’s an out.
- Ghost runners can only be forced-in to score. For example: A runner on 3rd when a single is hit results in that runner remaining on 3rd and a new runner on 1st.

OVER THE LINE

Play ball with as few as two players.
